Hardware Requirement Research

These are the hardware requirements inorder to complete the project with efficiency.

(mishra, 2022)

1. Prerequisite

- System requirements: mac OS > 10.10
- Minimum RAM: 4 GB
- Storage space: 10 GB available space
- Internet browser: Chrome, Safari, Opera, Microsoft Edge
- Internet connectivity: 512 kbps and above

Since I am using latest version of macOS these requirements are met properly.
